

ANU GUPTA

UI/UX Designer

Faridabad, Haryana, India | +91 7503590030 | anugupta1405@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

UI/UX Designer and Product Design Specialist with 4+ years of experience building enterprise SaaS products — from B2B travel platforms to entity management dashboards. Expert in Figma design systems, interaction design, accessibility (WCAG 2.1 AA), and cross-functional delivery. Proven track record: 28–32% usability improvements, 95% design system adoption, and 40–50% reduction in design-to-development handoff friction. Skilled in Agile/Scrum environments, user research, and AI-assisted design workflows.

CORE SKILLS & TOOLS

Design	UI/UX Design · Interaction Design · Responsive Design · Information Architecture · Wireframing & Prototyping
Research	User Research · Usability Testing · Competitive Analysis · A/B Testing · Heuristic Evaluation · User Journey Mapping
Tools	Figma (Expert) · FigJam · Miro · Cursor AI · Webflow · Framer · Adobe XD · Storybook
Systems	Design Systems · Design Tokens · Component Libraries · WCAG 2.1 AA Accessibility · Frontend Collaboration
Process	Agile/Scrum · Stakeholder Management · Cross-functional Delivery · AI-Assisted Workflows

PROFESSIONAL EXPERIENCE

UI/UX Designer | Appcore Labs India Pvt Ltd

Mohali · Nov 2024 – Apr 2026

- Led end-to-end redesign of a legacy enterprise entity management dashboard — identified 12+ navigation pain points, restructured information hierarchy, and delivered a modern interface improving usability by 32% and reducing task completion time by 40%.
- Architected a Figma design system from scratch with 150+ components using auto-layout and design tokens — achieved 95% company-wide adoption and reduced design-to-development handoff friction by 50%.
- Designed responsive data tables with advanced filtering, sorting, and inline search, enabling enterprise users to manage complex datasets without context-switching.
- Applied AI-assisted design workflows (Figma AI, Cursor) to accelerate component iteration and layout exploration, reducing design cycle time by an estimated 25%.
- Collaborated directly with developers and QA throughout Agile sprints — pixel-perfect delivery with detailed documentation eliminated redesign cycles post-launch.

UI/UX Designer | Quadlabs Technologies

Gurgaon · Jul 2023 – Nov 2024

- Owned UI/UX design across 3+ modules of a B2B corporate travel and expense platform — streamlined self-booking flows, approval workflows, and policy management screens, contributing to a 23% lift in user engagement.
- Built a scalable Figma component library with 180+ reusable components using auto-layout, design tokens, and AI-assisted workflows — reduced design-to-handoff cycle by 40%.
- Conducted user research, competitive analysis, and usability testing to identify UX gaps — findings directly shaped navigation redesign and booking flow simplification across mobile and web.
- Ensured WCAG 2.1 AA accessibility compliance across all product surfaces — inclusive design applied to forms, data tables, and status indicators.

- Collaborated cross-functionally with PMs and developers in Agile/Scrum sprints to translate enterprise requirements into scalable, stakeholder-approved design solutions.

UI/UX Designer | Bebo Technologies

Mohali · Oct 2021 – May 2023

- Designed responsive web interfaces across multiple digital products — improved task completion rates by 18% through clearer workflows, visual refinements, and mobile-first design principles.
- Contributed to design system and component library development — established reusable UI patterns enabling consistent, scalable design across product teams.
- Partnered with product and development teams to translate business requirements into intuitive, accessible user experiences; strong foundation in stakeholder communication and design rationale.

EDUCATION

Diploma in Design

International Polytechnic for Women

2013 – 2016

Bachelor of Arts

Delhi University (concurrent with Diploma)

2013 – 2016
